

About This Role: The Department of Clinical Sciences, College of Veterinary Medicine at Kansas State University invites applications for a tenure or clinical track, assistant, associate, or full professor in Small Animal Internal Medicine. Applicants must hold a D.V.M. or equivalent degree and be a Diplomate of the American College of Veterinary Internal Medicine – Small Animal Internal Medicine (ACVIM- SAIM) or European College of Veterinary Internal Medicine (ECVIM). Candidates working toward certification are also eligible and invited to apply. The successful candidate should be committed to academia and dedicated to contributing to a high-quality teaching program. Individuals with advanced degrees and/or special training or practice experience are encouraged to apply.

The successful candidate will be joining a service of three other internists and will be expected to participate in clinical service, veterinary and graduate student instruction, and collaborative research in support of the academic missions of the College, Department and Veterinary Health Center. Directed clinical service activities include management of referral internal medicine cases, emergencies, and consults within the VHC, as well as mentoring of house officers and students in patient evaluation and management. Teaching responsibilities include instruction of veterinary students, interns, and residents in both clinical rounds and lecture environments.

The Veterinary Health Center at Kansas State University includes an endoscopy suite and is home to a radiology facility which includes state-of-the-art large and small animal digital radiography, fluoroscopy, ultrasound, recently updated 128-slice CT, and 3T MRI.

The starting date for the position is negotiable. Salary will be commensurate with the applicant's experience and qualifications.

Kansas State University is nationally recognized for its commitment to academic excellence, positive work environment, exciting student life, and the beauty of its campus. It is geographically located in a moderate climate with easy access to diverse recreational regions. Kansas State University was voted as the second best place to work for professional adults in the nation. For more information visit www.ksu.edu or www.vet.k-state.edu
