ProvenceVet, a referral clinic in south eastern France solely devoted to internal medicine, medical imagery and surgery, is searching a second internal medicine specialist in order to respond to our growing activity.

The candidate must have completed a residency, be board certified or eligible for board certification in Internal Medicine (ECVIM or ACVIM).

ProvenceVet has been in activity in the region of Avignon for more than 20 years which has led to a loyal base of more than 200 colleagues who refer over 1,500 cases per year.

Our actual team consists of one internist (ACVIM-IM) and one surgeon (former surgery teaching assistant at ENVT) as well as 6 autonomous nurses. We will soon be looking for a second surgeon and a building expansion to 800 m² is scheduled for 2022.

The clinic is equipped with all the necessary tool that you may need as an internist :

- CT scanner Canon 16 Aquilion Lightning purchased new in 2020
- Canon Aplio a ultrasound machine equipped with 5 probes
- 2 Pentax videoendoscopes (gastroduodenoscope and bronchoscope), as well as 3 Storz rigid scopes (1,9 mm, 2,7 mm and otoscope)
- In house Idexx laboratory
- EKG, blood pressure measurement equipment, microscope, etc....

The salary is competitive and the hours are flexible. If necessary, an extended period off clinic will be provided in order to prepare the board exam.

Our top priorities are to provide excellent care to our patients, in a compassionate way, while maintaining a positive work atmosphere among personnel.

Avignon and the surrounding region has outstanding weather year round with a proximity to the sea and mountains of under 2 hours. We are surrounded by world renowned vineyards (Châteauneuf du Pape, Tavel, Gigondas, Vacqueyras...). Culturally, the Choregies of Orange, the Opera of Avignon, the proximity to a plethora of museums in Aix-en-Provence and Marseille as well as the many summer festivals in the region makes this area a rich place to settle.

Feel free to contact us at : yvangamet@provencevet.fr or +33.611.361.044

Yvan Gamet, Dr Vétérinaire
M.S., ACVIM (IM)
