

Geelong Animal Referral Services (GARS)

Oncologist

We are looking for an oncologist to join our truly outstanding team. This exciting opportunity is most suited to an oncologist who is a team player and enjoys a multidisciplinary environment. At GARS you will enjoy a diverse and high-volume case load with excellent support from surgeons, medics, radiologist and criticalists. A phenomenal team of residents, interns and nurses will ensure you remain totally supported. Generous annual leave and no on call ensures work-life balance is much more than a throwaway line. We are completely dedicated to our team, and you would be joining a family where every member is highly valued, supported, rewarded, and cared for.

About Us

GARS is a privately owned, multidisciplinary, small animal referral hospital. The hospital is staffed 24/7 with onsite specialists in surgery, internal medicine, emergency critical care and diagnostic imaging. Specialists are supported by an outstanding team of residents, interns, nursing, HR and customer service staff.

The GARS vision is to be Victoria's leading referral centre. Extending beyond our first-class facility, we are dedicated to recruiting like-minded, team players to help achieve this goal. The hospital is brand-new and purpose-built. It is surrounded by beautiful greenspaces, while overlooking the Barwon River, Balyang sanctuary and Balyang Golf course. The facility is packed with state-of-the-art equipment, some of which includes; onsite MRI, CT, C-arm Video Fluoroscopy, Endoscopy, Ultrasound, DR radiography, multiparameter patient monitoring, mechanical ventilators, ECG, blood gas/electrolyte, coagulation, haematology and biochemistry machines.

For the successful applicant, if you desire, there is also opportunity to work within our sister business, Melbourne Animal Referral Services (MARS), which is undergoing exciting expansion.

About the area

GARS overlooks the Balyang Golf Course and Barwon River with bike and walking paths right on our front doorstep. The popular cafes, restaurants and bars of Pakington street and Geelong CBD are only several minutes away. The outstanding wineries and distilleries of the Bellarine peninsula and beautiful beaches of Torquay Surf Coast and the famous Great Ocean Road are less than 25minutes away. Transport links are excellent, with the South Geelong train station less than 3kms from the hospital, the Spirit of Tasmania Ferry, Avalon and Melbourne International Airports, 15, 25 and 60 minutes from the hospital. Major arterials are also close by, offering fast and easy connections to Melbourne, Victoria's North, West and South.

About the GARS Oncology Service

Currently Oncology cases are shared between medicine and surgery departments with support from imaging and emergency and guidance from offsite oncologists.

In line with our vision of providing first-class comprehensive services, we wish to expand and improve on this through addition of a dedicated on-site oncology team. We are highly motivated to ensure success and happiness for all staff, so a blank canvas of how you would like to grow this department will be welcome and supported. We are very fortunate to have many specialists highly trained and skilled in advanced imaging (Ultrasound, CT, MRI, Endoscopy, Fluoroscopy etc) who will help support the oncology service.

Position details

We are specifically looking for a dynamic team player who is willing to collaborate with all members of staff while expanding our first-class services to patients, clients and referring vets. Area(s) of interest that the candidate wishes to advance to the highest possible level will be strongly supported.
