CLINICAL SCHOLAR TRAINING PROGRAMME

Combined 4-year Residency and Masters Programme in Small Animal Internal Medicine

Graduates in veterinary medicine, who have completed a rotating internship programme or equivalent, are invited to apply for this combined Residency and Master's degree by research. Applicants must be a Member of the Royal College of Veterinary Surgeons, or hold a veterinary degree qualifying them for membership. Candidates will be expected to study towards the European Diploma in Veterinary Internal Medicine – Companion Animal and to undertake a Master's degree by research in this field. The training programme requires participation in the hospital's clinical services, in addition to small-group teaching of veterinary students. Scholarships are renewed annually, subject to satisfactory progress. Initial stipend is £26,017 (PAYE exempt), rising to £27,717 by the fourth year. An additional £1,500 per annum is available for attendance at conference(s), examination fees and externship costs.
