

**JOB ADVERT**

**Specialist in Veterinary Cardiology Required in the UK**

- Cheshire Cardiology is an established, independent, Specialist run veterinary company in the North West of England. We are looking for at least one experienced and outstanding specialist to join us at our brand new premises with a particular interest in interventional surgeries.
- Essential Criteria – a) board certified with experience in veterinary cardiology interventional surgeries b) a strong interest in clinical research and peer-reviewed publication c) excellent interpersonal skills d) evidence of positive engagement with key stakeholders.
- Preferable (although not essential) Criteria – a) experience in leadership (e.g. clinical director) b) interest in teaching c) experience with stenting is preferable, although not essential.

Equipment includes a GE Vivid E95 with transoesophageal probe and 4D capability, Vivid iQ and Vivid Q, Echopac workstation and a full range of the usual cardiology equipment. You will be supported by a RCVS Specialist in Veterinary Cardiology, three cardiology interns, a practice administrator and a team of experienced nurses. We recognize that our needs are likely to match a select number of individuals with outstanding reputations. We are extremely flexible and would consider a job share or flexible working to suit. Terms and conditions are negotiable. Applications (cover letter and CV) and informal enquiries can be emailed to [emily@cheshirecardiology.com](mailto:emily@cheshirecardiology.com).

Dr Emily Dutton BVM&S DVC MRCVS  
*Diplomate in Cardiology*  
*RCVS Recognised Specialist in Veterinary Cardiology*
