

Internship in Small Animal Internal Medicine x2

Job Ref: 9057

Locations Easter Bush Campus, Roslin, EH25 9RG

Full time, Fixed Term 12-month contract

Salary: £ 31,396

We are looking for enthusiastic confident candidates for our 12-month Small Animal Internal Medicine internship programme to join our friendly and supportive team of Medicine Diplomates, clinicians, residents, nurses and animal care assistants.

The Opportunity:

Our 12-month medicine internship programme provides an opportunity for recently qualified veterinarians or veterinarians who have already done a rotating internship and are looking for more specialist internal medicine experience to receive high-quality postgraduate training in small animal medicine. The intern(s) will gain extensive clinical experience in managing medicine patients whilst working alongside board-certified specialists (European and American College of Veterinary Internal Medicine: ECVIM and ACVIM) and senior clinical scholars (residents of the ECVIM). This provides them with an opportunity to participate in specialist veterinary discipline care and can allow preparation for a Senior Clinical Training Scholarship programme, a career in research, academia or specialist clinical medicine.

Your skills and attributes for success:

- Member of RCVS
- Appropriate English language qualifications
- Ability to work in the UK – please check right to work pages (via link below). Applicants should ensure they have fully read and understood the UK Immigration criteria required to apply for this position.
