

Full/part time Diplomate (or board eligible) (ECVIM/ACVIM)

Senior physician (m/f/d) in internal medicine, Diplomate ECVIM-CA or ACVIM or board eligible.

We are a new, independent, steadily growing referral clinic in Cologne, Germany, offering first-class veterinary medicine at the highest scientific level, focusing to deliver exceptional patient care and client service.

Our clinical team consists of approximately 29 veterinarians (1 Diplomate ECVS, 1 Diplomate ECVN, 3 FTÄ) with special expertise in a wide variety of disciplines. The hospital is equipped with 3 surgery suites, digital radiography (including dental), computed tomography (Siemens 32 slice) ultrasonography (with 3 ultrasound machines on site), endoscopy and rhinoscopy towers (Storz) with a variety of rigid and flexible endoscopes, complete on-site laboratory, compounding pharmacy and a vibrant physical therapy and rehabilitation department.

Your profile:

As a licensed veterinarian, you have attained or will soon attain the status of Diplomate ECVS or ACVS (board eligible).

You exemplify our guiding principles: Quality, Integrity, Compassion, and Service

You enjoy working with a team of specialists, doctors, interns, nurses and support staff.

Patient owners find you to be a competent communicator with empathy and a good sense of what is medically feasible.

Optimally, you have a sound knowledge of sonography.

Your tasks:

You will be responsible for the care of referral patients or provide a second opinion on patients with complex histories.

The day-to-day collaboration with the referring physicians includes case-specific communication, writing medical reports and conducting training or seminars.

On a case-by-case basis, you will work closely with veterinarians from all departments of the clinic and share your knowledge, especially with our younger colleagues.

You will lead daily rounds and ensure that assistant veterinarians expand their internal medicine skills.

We offer:

We offer you an area of responsibility with a broad spectrum of patients and challenging cases.

You will have the opportunity to develop the internal medicine department, create new structures and expand and develop your area of expertise.

We offer a salary commensurate with the importance of this position and regulated working hours (full or part-time) and discretionary funds for continuing education.

We look forward to receiving your application.
