

VetAgro Sup

The Small Animal Teaching Hospital (CHUVAC) of the Veterinary Campus of VetAgro-Sup, Lyon, France
is looking for a:

Full time or part time Lecturer / Associate Professor in companion animals internal medicine

The position

The Small Animal Teaching Hospital of VetAgro Sup is seeking a part-time or full-time clinician in companion animal internal medicine to join the existing Small Animal Internal Medicine Service. Professional rank and salary will be commensurate with the candidate's qualifications and experience. Clinical responsibilities include direct management of referral and second opinion cases presenting to the Small Animal Internal Medicine Service. Teaching responsibilities include daily supervision and instruction of students, interns, and ECVIM-CA residents in internal medicine. The position offers opportunities to participate to or develop collaborative research activities if desired.

The successful applicant will be able to choose between a full or part time (at least 1 day per week) position, depending on the successful candidate's interests and availability. In the case of a full time position, the candidate is expected to participate in the supervision of after-hours care to animals hospitalized within the Internal Medicine service (primarily phone calls from residents during evenings and week-ends, about 1 week per month).

Depending on the candidate's preferences and qualifications, recruitment could also focus on a position as an Associate Professor (half-time or full-time), involving additional didactic teaching responsibilities and more extensive research activity.

Desired start date: from September 2024, but a later start date is possible.

In the short term (1-2 years), there will also be an opportunity for career progression to an academic *tenur* position.

About us

VetAgro Sup is a public institution of higher education and research that trains veterinarians, agricultural engineers, and veterinary public health inspectors. The quality of the educational programmes has been recognised by the American Veterinary Medical Association (AVMA) and the European Association of Establishments for Veterinary Education (EAEVE).

You will be based at the veterinary campus at Marcy l'Etoile which is located in the suburban area of the beautiful city of Lyon, providing access to a large city center with a great historical and gastronomic culture as well as close proximity to the countryside.

The Small Animal Teaching Hospital provides a complete range of clinical services to its patients through a full complement of on-site diagnostic and medical support equipment that includes a new and extensive array of endoscopic equipment (Olympus Digital Endoscopy System with flexible and rigid scopes including uretroscope), new in-house 1.5T MRI and 64 slice CT, abdominal and cardiac

ultrasound scanners, digital radiography, fluoroscopy, cystomanometry and urethral profilometry, electromyography, and a well developed emergency and intensive care unit offering dialysis, mechanical ventilation and blood transfusion.

You will join our Medicine Clinical Unit that currently includes two internal medicine specialists (1 diplomate ECVIM-CA, 1 diplomate from the French specialization system DESV), one Professor in internal medicine, 3 ECVIM-CA internal medicine residents, 1 oncology specialist (dipl. ACVIM (Oncology)), 2 ECVIM-CA oncology residents, 1 part-time cardiology specialist (dip DESV cardiology) and an ophthalmologist.

Joining our team, you will have the opportunity to work collaboratively with a very large team of diplomates of other specialities including Diagnostic Imaging, Emergency and Critical Care, Dermatology, Surgery, Reproduction, Anaesthesia and Analgesia, Clinical Pathology, Pathology, Pharmacology and Toxicology, Parasitology, a neurologist, a team of interns and dedicated nurses.

Qualifications

- DVM degree with advanced training in companion animal internal medicine
- Diplomates of ECVIM-CA, ACVIM (Internal Medicine), or DESV and/or residency-trained candidates are preferred, especially to participate in our residents supervision as advisor, but non-specialist applicants with sufficient experience will be considered

Candidate requirements

- Commitment to undergraduate teaching and learning
- Commitment to supervision of postgraduate students
- Commitment to providing the highest level of patient care, including collaboration with referring veterinarians
- Ability to undertake collaborative work in a team setting
- Good work ethic
- Sound knowledge and conversation skills in French. Candidates that have only basic knowledge of the French language but who are willing to improve their skills will be considered

How to apply

Review of applicants will begin upon receipt of applications and will continue until the position is filled.

Applications including letter of intent with statement of professional goals and curriculum vitae should be sent to emilie.krafft@vetagro-sup.fr and marine.hugonnard@vetagro-sup.fr
