

'Tierklinik Aarau West AG' is the largest vet-owned small animal clinic in Switzerland. More than 150 employees provide a professional and state-of-art service for our patients. Our clinic is characterized by the interdisciplinary cooperation of a great number of diplomates and the interaction with our motivated trainees, interns, assistants, seniors and veterinary nurses. As an important referral and emergency centre we are expanding our service.

To provide further in house service we're looking for an

## Ultrasound specialist (f,m,d; 40 - 100%)

You will be in charge of

- Clinical ultrasound examinations of our hospitalized patients on a daily base
- support and training of assistants and interns in ultrasonography
- providing ultrasonographic service on emergency duty (by arrangement)

You are

- a diplomate of ECVDI/ACVR or eligible education  
or
- a diplomate of ECVIM/ACVIM or eligible education with long-term experience and specific interest in clinical ultrasonography  
or
- a well-trained and educated small animal specialist with advanced and confirmed ultrasound skills

Your qualifications include

- Long-term experience in clinical ultrasonography
- the knowledge of spoken German, but a candidate speaking English fluently could also be considered (normally no customer contact)
- exceptional communication and interpersonal skills
- interest and – preferably - experience in education
- a straightforward approach
- joy in a busy work routine

Our clinic provides a very professional working environment with modern equipment, engaged staff members and an interesting caseload. The interested applicant can expect fair working conditions and an adequate salary.

Please send your complete application to
