

Small Animal Internal Medicine Specialist
Veterinary Specialists Ireland

Veterinary Specialists Ireland is thrilled to announce an opening for a board-certified (ACVIM/ECVIM-CA) or residency-trained Small Animal Internal Medicine Clinician. This is an exciting opportunity to be part of our expanding team of specialists.

Our independently-owned, referral-only hospital, located just 30 minutes from Dublin, has been serving the island of Ireland since July 2019. We currently have a dynamic team that includes six ACVS/ECVS Diplomates, three ECVS residents, one ACVSMR/ECVSMR Diplomate, and two ECVIM-CA Diplomates. Additionally, an ACVECC Diplomate will be joining us in January 2025. We also offer support services in Cardiology, Nutrition, Ophthalmology, and Integrative Medicine, and collaborate closely with specialists at our sister hospital, which opened in Cork in May 2024.

Due to our growing caseload, we are seeking a qualified professional to join our referral-only internal medicine service. The successful candidate will work closely with a dedicated team of specialist colleagues, support staff, and referring veterinarians, with the assistance of our experienced medicine nursing team. Our hospital is fully equipped with state-of-the-art technology, including digital radiography, 64-slice CT, ultrasound, fluoroscopy with vascular capability, flexible and rigid endoscopy, 1.5T MRI, and a comprehensive in-house laboratory.

We are looking for an individual who embodies our commitment to exemplary clinical care and exceptional service to our clients and referring veterinarians. In return, we offer a competitive compensation and benefits package, along with the unique benefits of working in an independently-owned practice

If you're interested in learning more about this opportunity, please contact our Director, Laura Cuddy, at laura.cuddy@vetspecialists.ie for a confidential discussion.
