

**An opportunity to transform the lives of future colleagues while caring for the lives of animals.  
A unique veterinary clinical specialist career pathway.**

- **Full time located on Camperdown Campus at the Sydney School of Veterinary Science in The University of Sydney**
- **Opportunity to inspire and train the next generation of veterinary leaders, engage with the school ranked #1 in Australia, within a world-class university**
- **Base Salary HEO 7/8/9 (38 hours), \$117,864 p.a. - \$167,425 p.a.(pro-rata) + 17% superannuation + generous loading when registered as a specialist to a total package of \$221,001 for including specialist loading)**

### **About the opportunity**

**Your chance to have a marked impact on the future of the veterinary profession as you care for the lives of animals.**

We are seeking to appoint a **Registrar/Senior Registrar/Veterinary Specialist in Small Animal Medicine** to join a team of outstanding world-class clinical specialist colleagues at the University Veterinary Teaching Hospital Sydney. This role does not require previous academic experience but rather a strong clinical background and interest in supporting student development.

They will be responsible for providing best practice veterinary small animal medicine services at the University Veterinary Teaching Hospital Sydney (UVTHS). They will take an active role in the training of undergraduate and postgraduate students working in the University Veterinary Teaching Hospital. The position will help to sustain and enhance a caseload of animals referred for management of medical problems and provide small animal medicine services for the purpose of teaching Doctor of Veterinary Medicine (DVM) and postgraduate students and residents in the UVTH-Sydney. They will also assist clinicians in other small animal disciplines with case management and assist in undergraduate teaching as clinical instructors.

The academic environment is different to commercial specialty practice with the academic mission of teaching and research being central to operations.

The key benefits:

- be inspired everyday
- be part of developing the next generation of veterinarians
- be stimulated by an academic environment focused on teaching and research
- opportunity to learn and enhance your skills and experience in the unique teaching and research environment of a Veterinary Teaching hospital
- opportunity for a different professional pathway where you can leverage your clinical expertise, enhance work life balance, and find purpose in academic opportunities
- salary packaging available
- 15% veterinary clinical specialist loading is available once registered as specialist by NSW Veterinary Practitioners Board
- Industry-leading leave provisions including generous paid parental leave entitlements (pending eligibility up to 36 weeks)
- compressed work week available
- generous relocation allowance and access to research and publication support
- gain the recognition of working in a leading Veterinary School in an outstanding University.

We support and encourage excellence in all aspects of the role, from patient care, teaching and learning, and research. The school values highly the tenants of mutual support, respect, empathy, collegiality and integrity. Join an organization that has over a hundred years of experience in clinical training and innovation. Be part of the transformational process supporting students as they transition to become veterinarians. A privileged role for someone who wants more than a job- come and do work with a purpose.

Your key responsibilities will be to:

- provide an effective service for small animal medicine referral cases from both external and internal referral bases
- supervise undergraduate and postgraduate clinical trainees on clinical rotations
- take a leadership role with the training of undergraduate and postgraduate students and residents,
- provide support for cases from other clinical services within the University Veterinary Teaching Hospitals
- participate in after-hours on-call roster.

Since the founding of veterinary science in 1910, the mission of the Sydney School of Veterinary Science (SSVS) has been to provide the nation's best training in the health, welfare, and conservation of animals. The school is internationally accredited with the American Veterinary Medical Association, Canadian Veterinary Medical Association, the Australasian Veterinary Boards Council and Royal College of Veterinary Surgeons (UK) by reciprocal agreement. Veterinary science at Sydney is ranked 1<sup>st</sup> in Australia, within a world-class university.
