

Associate Professor in Small Animal Medicine and Senior Lecturer Small Animal Medicine

Murdoch University acknowledges the different perspectives, skills and experience that people from different backgrounds bring to strengthen its workforce. Murdoch University is committed to enhancing diversity in all its forms and strongly encourages suitably qualified candidates from Aboriginal and/or Torres Strait Islander peoples, women, people with disability, people of CaLD background and people of diverse genders to apply for this important position.

About Us

The School of Veterinary Medicine is responsible for the training of veterinary science graduates and the degree program has received international accreditation. A central part of the training is development of core clinical competencies and as part of this process veterinary science students undertake training in our hospital, clinics, and clinical services. In addition to the training of undergraduate veterinarians, SVM also trains a number of postgraduate specialists in Residency programs.

Veterinary professional practice is central to the curriculum within the School of Veterinary Medicine. The program contributes to the teaching of all veterinary students as well as participating in international collaborations on graduate outcomes and day one competencies.

The Animal Hospital at Murdoch University is an ASAVA accredited facility with a robust referral, emergency and primary care caseload across a breadth of companion animal and food animal species. The Animal Hospital provides clinical experience for fifth year veterinary students enrolled in the Doctor of Veterinary Medicine program and provides caseload for the training of residents and specialty trainee postgraduate students.

Associate Professor in Small Animal Medicine

- Continuous Full Time
- \$156,600 - \$172,350 plus 17% employer superannuation contributions
- Market Allowance
- Salary Packaging opportunities
- Ref: JR103211

The Role A strong track record of academic excellence is expected at this level, as is high quality research that has national and/or international impact. Closing date: 31st March 2025 (11:59pm AWST)

Senior Lecturer Small Animal Medicine

- Continuous Full Time
- \$130,434 - \$150,036 plus 17% employer superannuation contributions
- Market Allowance
- Salary Packaging opportunities
- Ref: JR103225

The Role

A Senior Lecturer within the Clinical or Professional Scholar track is expected to have a record of clinical and professional excellence within the field of small animal medicine, and to have experience in the delivery of high quality undergraduate and postgraduate clinical training. A Senior Lecturer makes a considerable contribution to the University's postgraduate supervision and is expected to play leadership roles in university administration and in the discipline's clinical service within the Animal Hospital. This position makes a substantial contribution to all teaching activities within the discipline, as well as a substantial contribution to the College and profession.

What you'll bring to this role

- A clinical specialist qualification (DECVIM-CA, DACVIM or FANZCVS) (Level C) or eligibility to take specialist qualifications (Level B) in small animal medicine.
- Evidence of excellence in clinical work, and a high level of clinical competence across a range of small animal medicine cases.
- Ability to direct a clinical team within a small animal medicine referral service.
- Teaching experience at an undergraduate and postgraduate level alongside supervisory experience of honours, Masters by Coursework, HDR and postgraduate students or residents in training.
- Evidence of completion of clinical research, securing competitive grants, or producing high quality research outputs.

Applicants should refer to the Position Description for further details on the work requirements, duties, skills and experience required for this role.

What you'll get in return

You will be part of a vibrant and talented team, work in an innovative and lively university community and enjoy the benefits that come with working at Murdoch. Our people enjoy a lively, natural campus and world-class facilities, as well as a range of benefits including:

- Competitive remuneration
- Paid leave entitlements
- Flexible work arrangements
