

About Peninsula Vet Emergency & Referral Hospital

Peninsula Vet Emergency & Referral Hospital is a multi-disciplinary specialist and 24/7 emergency hospital located on Victoria's scenic Mornington Peninsula. Our team includes skilled specialists in surgery, internal medicine, anaesthesia, and emergency & critical care, supported by experienced nurses and support staff.

We're proud to provide patient-focused care in a purpose-built facility that encourages collaboration, clinical excellence, and ongoing professional development. Our team values open communication, genuine teamwork, and a supportive culture where everyone plays a part in achieving the best possible outcomes for our patients and their families. Join Peninsula Vet Emergency & Referral Hospital and be part of a dynamic team delivering exceptional veterinary care while enjoying an ideal work-life balance.

Facilities & Equipment

- Imaging: CT, digital radiography, fluoroscopy, and high-quality ultrasound units (including cardiac and abdominal capabilities)
- Endoscopy suite: Flexible and rigid endoscopy, bronchoscopy, cystoscopy, and arthroscopy
- Critical Care: Dedicated ICU and a 24/7 Emergency & Critical Care service staffed by experienced ECC veterinarians and nurses
- Accreditation: The only VECCS-registered hospital in Australia, meeting international standards for emergency and critical care

Meet Your Future Colleagues

This is your chance to work alongside a well-regarded specialist team that values collaboration and consistently strives for clinical excellence.

- Dr. Kathryn, Small Animal Internal Medicine Registrar. Her interests include minimally invasive procedures and techniques, gastroenterology, immune mediated disease and endocrinology.

About Mornington Peninsula, Victoria

Experience the best of coastal living on the stunning Mornington Peninsula just over an hour from Melbourne. Surrounded by wineries, surf beaches, and nature reserves, it's the perfect setting for a work-life balance that prioritises wellbeing, adventure, and community, without compromising on access to world-class veterinary facilities.

About the Role

As a Veterinary Internal Medicine Specialist, you will diagnose and manage challenging internal medicine cases, from complex endocrine and gastrointestinal conditions to advanced respiratory care. As well as collaborating with a multidisciplinary specialist team and ECC veterinarians and experienced veterinary nurses. This role is best suited for a recently boarded or experienced candidate, offering the opportunity to contribute to teaching and mentorship while enjoying flexible work arrangements and the lifestyle benefits of living in Australia.

Why Join us?

- Competitive salary plus 12% superannuation/pension
- Vacation/Annual Leave: 4 weeks minimum + public holidays
- 10 days annual personal leave
- Fully covered professional registration and memberships
- Visa sponsorship and relocation support
- Flexible work-life balance: supportive environment where your time outside of work is respected
- Professional Development: CPD allowance, board exam support, peer journal clubs
- Wellbeing Focus: Mental health leave, staff wellness programs, team lunches
- As part of the VetPartners network, teaching and speaking engagement opportunities through VetPartners' own Veterinary Training Centre

Requirements

- A board-certified diplomate of the ACVIM or ECVIM-CA or fellowship of the ANZCVS in Small Animal Medicine. Residency trained candidates also considered.
- Recognized and/or accredited undergraduate degree by the Australasian Veterinary Boards Council (AVBC). Limited registration candidates also considered.
- If required, passing the National Veterinary Examination (NVE).
- Driven by VetPartners values of integrity, excellence, community, and genuine care.
