

Small Animal internal Medicine Clinician

Bristol, United Kingdom

Due to two of our long-standing specialist team members leaving us to return back home, we're excited to announce that Bristol Vet Specialists have the opportunity for new team members to join our medicine department. We have two full-time (4 days a week) positions available. Whilst the ideal candidates will be ECVIM boarded diplomats, ACVIM diplomats or ECVIM/ACVIM board eligible candidates will also be considered. Candidates should have experience in running a busy hospital case load and in training medicine residents/interns. As part of the role, you will take part in an on-call rota supporting our residents.

The successful candidates will join our experienced, cohesive and friendly team that consists of three boarded specialists (2 ECVIM and 1 ACVIM), two medicine residents, one medicine intern, four discipline specific medicine nurses and one medicine specific patient care assistant. We also run a successful rotating internship program and so we often have a rotating intern on our service as well. Our department has all the usual fun tools a medicine specialist could need! Our team are actively engaged in research (seniors and residents) and research funding availabilities are available from CVS ([CVS Research Grants | CVS Group](#)).

BVS is a large specialist-led, referral-only hospital located in Bristol ([Bristol Vet Specialists: Leading Veterinary Care](#)). We offer the full complement of specialist veterinary referral services including Anaesthesia and Analgesia, Cardiology, Dentistry, Dermatology, Diagnostic Imaging, Emergency and Critical Care, Neurology and Neurosurgery, Oncology, Ophthalmology, Orthopaedics and Soft Tissue Surgery and online support available for Clinical Nutrition. Our departments work together in a collegial and collaborative environment to provide the highest care to our patients. Our brand-new state of the art purpose-built hospital has 11 canine consult rooms, a separate feline centre (with 3 consult rooms), MRI, CT, fluoroscopy, radiotherapy unit (with a linear accelerator), 5 theatres, canine and feline ICUs and an incredible team of referral nurses and support staff.

We offer a highly competitive salary package, alongside an attractive benefits package which you can view here - <https://careers.cvsvets.com/what-we-offer> .

For any further questions or if you want to have an informal chat about the roles, please do not hesitate to contact us via emma.roberts@bristolvetspecialists.co.uk.
