

Internal Medicine Referral Clinician

AzurVet is seeking to recruit an EBVS Recognised Specialist in Internal Medicine (Board eligible candidate will also be considered) to join its team of Small Animal Internal Medicine comprising 2 ECVIM specialists and 3 specialists interns.

AzurVet, a multidisciplinary referral centre based in St-Laurent-du-Var, in the South of France (PACA region), is seeking a veterinarian specialist in companion animal internal medicine to join its team. AzurVet groups an experienced team of 14 specialist veterinarians, 3 consulting veterinarians, 4 residents, 6 specialized interns, 27 veterinary nurses, and 3 administrative staff, supported by unique, state-of-the-art diagnostic and therapeutic equipment in the Alpes-Maritimes, between the mountains and the Mediterranean sea, 15 minutes from the international airport of Nice, close to the Italian border.

Position Summary

- Start date : Early 2027
- Full-time (4 days a week), no out of hours
- 6 weeks of holidays
- CPD Allowance
- Location: Multidisciplinary referral hospital, Saint Laurent du Var, PACA region, South of France
- **Salary upon request**

Facilities

AzurVet has a large team of veterinary professionals including 2 specialists in Surgery, 2 specialists and one resident in Internal Medicine, 4 specialists and 2 residents in Diagnostic Imaging, 3 specialists in Neurology, 2 specialists and one resident in Clinical Pathology and one specialist in Dentistry. It offers a full range of diagnostic and imaging capabilities, including MRI, CT scan, ultrasonography, radiography, flexible and rigid endoscopy, electro-diagnostics, fluoroscopy, chemotherapy suite and electrochemotherapy supported by an in-house laboratory with on-site ACVP & ECVCP specialists. The surgery team also has an extensive experience in interventional radiology, offering various stenting, intra-arterial chemotherapy and embolization procedures to manage complex cases comprehensively.

Team and Working Environment

The successful candidate will join a friendly and collegial multidisciplinary team, working alongside colleagues across the centre's various specialties.

A collaborative, supportive atmosphere is central to how the team operates day to day.

Candidate Profile

We welcome applications from ECVIM or ACVIM diploma holders, or EBVS recognised specialists. Considerations will also be given to board-eligible candidates with experience managing a varied caseload in referral medicine. The ideal candidate should be able to thrive in a team, fluent or professionally competent in French.

About the Opportunity

This position offers the chance to work with a varied referral caseload and well-equipped facilities, in a hospital located on the French Riviera, within easy reach of the Mediterranean coast and the Southern Alps.

Contact

If this position is of interest to you, enquiries and applications should be directed to **Dr Elsa Edery**, head of the Internal Medicine department at direction@azurvet.fr.
