Zürich, 01.09.2026

The Clinic for Radiation Oncology & Medical Oncology (Vetsuisse-Faculty, University of Zurich, Switzerland) is seeking to fill a position from **01.12.2026** or upon agreement for a

«Specialty Internship Oncology»

The position is initially limited to **one year**. Thereafter, there is the possibility of **extending the Specialty Internship for a second year** or, subject to appropriate professional and personal suitability and the availability of a position, **continuing with a Residency in Medical Oncology**.

The Specialty Internship is designed for motivated veterinarians who wish to further develop their clinical skills in oncology and gain extensive practical experience in a multidisciplinary university veterinary hospital. Clinical training is provided under the supervision of experienced oncologists.

Requirements include a completed degree in veterinary medicine and an interest in oncology. Previous completion of a **rotating internship or equivalent clinical training is desirable**. This is a full-time position as part of an internship and, in accordance with our guidelines, is remunerated with a salary of approximately CHF 68,000 in the first year.

The responsibilities focus on clinical duties within our clinic:

- Treatment of oncology patients (with a focus on chemotherapy and medical oncology)
- Independent communication with pet owners and referring veterinarians
- Evaluation and assessment of oncology patients under the supervision of a senior physician
- Assistance with inpatient care and further diagnostics
- Opportunity to participate in clinical and research projects
- No night shifts are required
- On weekends (every 3 to 4 weeks), you will be expected to assist with the care of any inpatients on a pro-rata basis.

We are looking for a motivated, independent, and proactive individual with strong organizational and time-management skills, who can work reliably and effectively in a demanding clinical environment. A positive, team-oriented attitude and the ability to work collaboratively with veterinary students, clinicians, nursing staff, and other members of the hospital team are essential. Excellent interpersonal and communication skills, as well as enthusiasm for teaching and supporting veterinary students, are highly valued. An interest in clinical research and contributing to the advancement of veterinary medicine is also desirable.

Colloquial German language skills (at least B2 level) and good English skills are required for this position. **The possibility of a future oncology residency (medical oncology) may be considered.**

We offer: A paid oncology internship. In addition to their regular duties, interns participate in daily patient rounds, weekly journal and book clubs, as well as weekly rounds and seminars. The position provides the opportunity to develop advanced knowledge and practical skills in medical oncology while gaining experience in a multidisciplinary university setting.

For inquiries, please contact Prof. Dr. med. vet. Rohrer Bley (crohrer@vetclinics.uzh.ch)

A complete application includes a resume with a photo, a cover letter, two letters of recommendation, and your diploma. Please send applications via email to csilla.fejoes@uzh.ch

Applicants who obtained their degree in a country other than Switzerland must have it recognized. For more information, please visit the following website: <https://www.bag.admin.ch/bag/de/home/dasbag/organisation/ausserparlamentarische-kommissionen/medizinalberufekommissionmebeko.html>
